

Minutes

Civic Committee Meeting

November 2, 2010 - BWVC Room 2

Present: Tom Wheeler, Ed Rorhbach, Valerie Hutchinson, and Mick FitzPatrick , Guest-Larry Walker

United Water repaired and repainted the water tower causing many leaks and water outages in the Ardens and outer suburban areas. An excavation permit was issued to Sadie Somerville to replace her water service line which was apparently overcome by the United Water SNAFU.

Cherry Lane The Committee unanimously approved removing two dying Cherry trees on Cherry Lane. Replacements were discussed: Larry mentioned Kwansan Cherry trees as a possible replacement since one problem with cherry trees is that tent caterpillars love them. Kwansan Cherry doesn't even have cherries and perhaps we should consider a tree with fewer maintenance issues.

Johenna envisioned flowering trees when discussing her bequest with Tom. A policy is still being established regarding the use of those funds. The Committee will talk to other committees like Forest to develop a plan. Rodney Jester previously donated funds for a Cooper Beach, an expensive tree that is slow growing, lives a long time, and should be planted in the spring.

Green & Woodland Lane

Larry also mentioned that the telephone poles laying on the Green @ Woodland Lane are rotten and we need to consider removing them.

Steet Signs

Tom will to check our sign inventory regarding reflective street signs for safety purposes.

Sand Barrels

The State requested our application for sand barrels. Ed is handling and will submit the application.

Electric Meter for Fair

Steve Cohen from the Adren Club emailed that the club will be sending a proposal to put an electric meter on a pole at The Highway and The Row by Phillips to allow moving the food services to that location during the fair.

Next Meeting - Tuesday, December 7 at 7:30 in the BWVC Room 2.

Respectfully submitted,

Valerie Hutchinson

Substitute Secretary
